

Session Fantasy Draft

If Legislative Session is actively happening at the Capitol, you can use the real goings-on to create a fantasy draft in your class for students to compete.

- **Goal:** Students select bills they think will succeed. Gain points for bills making it through each step of the process. Student with the most points wins.

Instructions:

- Select Bills:
 - Choose your bill lineup (Maximum 5 Bills)
 - Aim for bills you think will make it all the way through the process of becoming a law.
 - What are hot topics?
 - How might different bill types affect their likelihood of being passed?
 - Who is sponsoring the bill? What is their record like?
- Sign up for alerts on oregonlegislature.gov
 - Fill in your bills' actions each week, and tally your points on the [worksheet]
- **Trades:**
- If your bills are doing poorly, you can trade with new bills introduced that week (Check the [Session Publications](#) link on OLIS)
 - This is a gamble but it can pay off!
- When trading bills, you only gain points from new actions
 - For example, if your original bill never made it to Committee, but you trade for a bill on its Second Reading, you can only count points from actions starting after the Second Reading

Winning

Tally your points from each Bill Action. Point values are as follows:

- First Reading: +10 Points
- Went to Committee: +20 Points
- Returned to Committee: +25 Points
- Bill Passes Chamber on 3rd Reading: +25 Points
- Bill Passes Chamber with 2/3rds Majority: +15 Points
- Signed by Governor: +30 Points

Add the total of all your bills' points cumulatively
Compare with other players to see who has the highest score

Session Fantasy Draft Tracker

Bill Number / Keyword	1st Reading	Out of Committee	Passed 3 rd Reading	1 st Reading in other chamber	Passed 3rd Reading in other chamber	Bill passed with 2/3rds Majority? (Add 15pts per instance)	Signed by Governor
